

3.78 kW SHARP PV System

Wellington, Shropshire

Our client required a system that would recoup his investment as quickly as possible. After a great deal of planning and liaising with our client, this stunning array was presented on time and on budget!

Using SHARP ND 210 Modules and an SMA sunny boy inverter, it is not hard to see why our client is over the moon! Every one of our completed installations is fully open to any inspection. We at SALOP ENERGY are confident that once you have contacted our previous client base you will find that they are more than satisfied with our professional installation

service, the product and the results of their installed solar PV system. We are the logical choice for a quality photovoltaic installation in and around Shropshire.
